

Manager, Project Procurement - EPCM (40629)

Location: Saskatoon, SK

About Us

Cameco is one of the largest global providers of the uranium fuel needed to energize a clean-air world. Utilities around the world rely on our nuclear fuel products to generate safe, reliable, emissions-free nuclear power. Cameco's corporate office is based in Saskatoon. We have mining operations and projects in northern Saskatchewan, Kazakhstan, the United States and Australia. We are also a leading supplier of uranium refining, conversion, and fuel manufacturing services from our operations in Ontario.

The Role

Reporting into the sr. director, supply chain management, this position is located at the Saskatoon corporate office. Cameco is looking for a motivated, team-oriented professional who values integrity, safety and the environment and strives to incorporate those values into their everyday achievements.

In this role, you will:

- Oversee the procurement and supply chain activities of external EPCM contractors working on behalf of Cameco.
- Identify interfaces between EPCM contractors and Cameco systems to ensure that work plans meet project needs and satisfy Cameco policy requirements.
- Assist EPCM contractor in prequalification of vendors to expedite procurement process for supplies and services. Ensure the prequalification process aligns with Cameco's values, principles, and meets the project expectations.
- Collaborate with project teams to develop recommended governance structure for procurement processes and decisions under EPCM delivery model.
- Ensure that project procurement plans and strategies are aligned with Cameco values, policies, and broader company goals/objectives.
- Review and approve key milestones in procurement bidding processes including bidders lists, single source justifications, award criteria/weighting, and award recommendations.
- Evaluate and approve negotiated exceptions to Cameco's standard form contract terms and conditions, consulting legal department where necessary.
- Ensure Cameco payment commitments are being met and troubleshoot/resolve any areas causing or contributing to late payments.
- Identify and implement continuous improvement opportunities regarding Cameco procurement processes and procedures to streamline and enable EPCM project execution.

Required:

- Bachelor's degree in commerce/business or engineering
- Minimum 10 years of experience in various areas of supply chain management including capital project procurement
- Equivalent combination of education and work experience considered

Recommended:

- SCMP, CCA, Peng, PMP certification is considered an asset
- Experience working under an EPCM delivery model, either as a contractor or owner's representative

Cameco is proud to offer a competitive total reward package which includes:

- Competitive compensation program with base and variable pay
- Flexible health, drug, dental, and vision plan with a health spending and personal spending account
- Fixed benefits including employee and dependant life, AD&D, disability benefits and paid vacation leave
- Employee & Family Assistance Programs
- RRSP and RPP matching program
- Career development opportunities
- Relocation costs

Cameco is an employment equity employer and aims to achieve gender parity, and as such, preference will be given to qualified members of equity groups. We are strengthened by the diverse backgrounds of experiences and encourage applicants with various levels of expertise to apply, as equivalent combination of education and work experience are considered.
