

Nutrien is a leading provider of crop inputs and services, and our business results make a positive impact on the world. Our purpose, *Feeding the Future*, is the reason we come to work each day. We're guided by our culture of care and our core values: safety, inclusion, integrity, and results. When we say we care, we mean it. We're creating an inclusive workplace where everyone feels safe, has a sense of belonging, trusts one another, and acts with integrity.

Through the collective expertise of our nearly 26,000 employees, we operate a world-class network of production, distribution, and ag retail facilities. We efficiently serve growers' needs and strive to provide a more profitable, sustainable, and secure future for all stakeholders. Help us raise the expectation of what an agriculture company can be and grow your career with Nutrien.

What you will do:

- Primarily responsible for working cross-functionally within TD&L and the Commercial Unit on a range of TD&L strategic initiatives.
- Based on effective research, data development, analysis, and modeling, make thoughtful recommendations on opportunities for value creation within TD&L.
- Build strong, trusted relationships with key stakeholders at various levels of the organization.
- Collaborate closely with the CD&I team to ensure alignment across the Commercial business unit on strategic priorities.
- Develop a keen understanding of TD&L strategic initiatives; ensure prioritization of time and resources represents TD&L & Commercial stakeholder interests.
- Provide outstanding analytical insights and reporting across TD&L functions.
- Prepare presentations and other material that highlight key messages and facts to facilitate communication and understanding with internal and external stakeholders.
- Work in a confidential and collaborative manner across business units on multiple projects of varying complexities and timelines.
- Provide support for the Director, Transportation Initiatives and TD&L leadership team, as needed.
- Work effectively within a small, highly accountable team, with a willingness to help where required.
- Approach assigned duties with enthusiasm, curiosity, and professionalism.

What you will bring:

- 8 – 10 years related and progressive work experience in an Operations, Business or Financial Analysis role.
- A Bachelor's degree in Business, Operations Management, Supply Chain Management, or related field of study.
- Excellent analytical, critical thinking, problem solving and decision-making skills with strong change management leadership.
- Experience supporting/leading with cross-functional project teams, multiple deliverables and using project management techniques.
- Ability to work independently and interface with various levels of management in a multi-tasking, deadline oriented, team environment.
- Ability to perform in an ambiguous environment and quickly adapt to changes in schedule and direction.

- Proven analysis and presentation skills complemented by proficiency with common tools such as Microsoft Excel, and PowerPoint.
